

TO WHOM IT MAY CONCERN

Re: Sean Regan Building Contractor

Sean Regan has recently worked with Henry J Lyons on a project which involved a Protected Structure. This project was complex in nature, requiring both high levels of contracting and organisational skills.

Sean Regan's work has been exemplary. The quality of the workmanship was of an extremely high standard and the programme's timing was strictly adhered to. Sean's attention to detail and his availability at all times were exceptional.

We will continue to engage Sean Regan to carry out work for our Practice and will be most happy to place him on our tender lists in the future.

I offer him my highest recommendation.
